Posted by: Zbrush With Pictures: Kailon on December 19, 2012 03:58. ScreenShot: ZBrush rendering in Autodesk Maya 2013. I am going to show you how I made this easy screen shot by a top ZBrush Zbrush Rendering For Maya Blog post. View Zbrush Tutorials - In the works. Be sure to read the blog post on Zbrush Rendering For Maya for more information. In this tutorial, I'm going to take a quick look at creating a simple ZBrush rendering setup in Maya. This simple setup is sufficient to produce a screen shot like the one seen in this blog post, where you can clearly see the ZBrush rendering in action, as well as have the rendering displayed in-scene in a viewer so you can see it moving and changing with the render pass settings. Replace-able stock footage of a kite performing various maneuvers. I'm going to use a simple arrangement with a kite and a giant eagle circling it, flying in various directions. This footage can be replaced with a wide variety of stock footage, depending on your needs. Zbrush Rendering In Autodesk Maya 2013 This simple setup is sufficient to produce a screen shot like the one seen in this blog post, where you can clearly see the ZBrush rendering in action, as well as have the rendering displayed in-scene in a viewer so you can see it moving and changing with the render pass settings.
